
Project Information Form

03_12_2021

Name:

E-mail address:

Institute/Department:

Group leader:

Phone:

Project title:

Short description of the project:

Which service(s) are you interested in?

Cell Isolation

Flow Cytometry

Protein analysis

What kind of cell type/sample do you want to analyze?

Please specify cell size as well as number and volume of samples

whole blood

human primary cells

cell line

others

What kind of cell isolation do you wish?

Density Centrifugation

Magnetic Cell Isolation

others

not applicable

Is the antibody panel for Flow Cytometry already defined?

If yes, please specify

- yes
- no
- not applicable

Which cellular attributes would you like to analyze using Flow Cytometry?

- surface markers
- intracellular cytokines
- intracellular signaling molecules
- others
- not applicable

Please specify the soluble proteins you wish to analyze using ELISA?

- cytokines
- chemokines
- growth factors
- others
- not applicable

Have you already bought / decided on an analysis kit for ELISA analysis?

If yes, please specify

- yes
- no
- not applicable

Do you wish data analysis?

If yes, please specify

- yes
- no
